Summary

Software Engineering undergraduate with hands on experience in frontend development and strong foundation in HTML, CSS, JavaScript, and modern frameworks. Comfortable using GitHub for version control and JIRA for software project management.

PROJECTS

Calculator-app Javascript | [Sourcecode](#)

- Built a functional calculator supporting basic arithmetic operations.
- Practiced DOM manipulation and event handling for a responsive user interface.

Colour Changer-app Javascript | [Sourcecode](#)

- Created a color changing web app using Javascript, HTML, CSS. Allowing users to change the background by clicking color boxes.
- Implemented functionality with Javascript logic to handle user input and update the UI in real time.

TECHNICAL SKILLS

- **Programming:** JavaScript (DOM, ES6), HTML5, CSS3, React.js (basic), C (academic knowledge), C++ (academic knowledge), Python (basic)
- **Web Development:** Responsive design, event-driven programming, frontend app development.
- **Software Practices:** Debugging, unit testing (academic), version control (GitHub)
- **Tools & Platforms:** GitHub, DataCamp, Cisco Networking Academy, basic knowledge of LLM related tools.

WORK HISTORY | ENGINEERING INTERN

Python Essentials | (Course) 2025 Cisco Networking Academy

Building APIs in Python | (Course) 2025

DataCamp

Office and Productivity Software | 2021

The Hong Kong University of Science and Technology

EDUCATION

Relevant Coursework: Object-Oriented Programming (C++), Data Structures, Algorithms, Software Testing, Web Development, Natural Language Processing (academic knowledge).

Ostim Technical University | Turkiye | 2022 - Present

Bachelors in Software Engineering
